Skills

- Web framework - Django
- DBMS - MySQL, SQLite
- Machine Learning, deep learning
- Web Development
- Data Structures
- Git

Languages

- Python
- SQL
- HTML and CSS
- JavaScript
- C++
- Java

Career Objective

To pursue a challenging career in a progressive environment where innovation and creativity are encouraged, where my skills and knowledge can be enhanced to their maximum potential.

Academic History

B.E. Computer Science and Engineering (2018 - 2020)
Easwari Engineering College, Ramapuram, Chennai
8.4 CGPA (calculated till 3rd semester)

HSC (2016 - 2018)
Kendriya Vidyalaya, Konam, Nagercoil
94.4%

Experience

Backend Developer Intern - Olcademy
Dec 2020 - Mar 2021

- Solved many critical functional bugs.
- Transitioned major files from MySQL to MongoDB in a short period
- Helped and guided my fellow interns on query transition and debugging and integrated the bugs solved by other interns

Projects

Digit Recognizer

- An app to recognize the digit drawn on a canvas using neural networks and deep learning built from scratch using NumPy in python. The DL model was designed in an object-oriented way to improve the reusability of the modules created from scratch.
- Source code: https://github.com/Subikesh/Digit-Recognition
- Demo: subikeshdigits.herokuapp.com

Dental data Statistics
Backend Developer

- Designed and developed database for adding, updating and visualizing patients' data using SQLite in python for an open source software for SRM dental hospital, Chennai.
- GUI was created using tkinter package in python.
- Source code: https://github.com/Subikesh/DentalDataStatictics

Personal Details

- Father's name   - S. Ponnappa Dhas
- Date of birth   - 14th February 2001
- Gender   - Male
- Languages Known   - English, Tamil
- Interests and hobbies - Playing strategic mind games, listening to music
